Chadwick Boggs

SUMMARY
- Wide breadth of technical expertise in Java/JEE/J2EE, DevOps, AWS Cloud.
- Extensively worked with Clients on Requirements Elicitation and co-ordinate for the project planning.
- Designed and Deployed DevOps tools for automated SDLC Java/Kotlin/Scala/Groovy back-end micro-services, Unix, Reactive Extensions, NoSQL, SQL, Cassandra, Hadoop, Protocol Buffers, OSGi, Cucumber, Wiremock, Mockito, JUnit are some things used writing enterprise software.
- Extensive experience in containerization (Docker/Kubernetes/ECS), Cloud, AWS Amazon Web Service, Puppet, and Zookeeper, Jetty, Tomcat, JBoss, Spring I know and used in the projects.
- Worked at Sun Microsystems, Inc. in software engineering, then in their Java Center as a Java Consultant to their clients (Wall Street, Silicon Valley) teaching architecture, methodology, software design, coding.
- Worked at RedPrairie/JDA Software Group as an Engineer doing OSGi SOA, lead one new product project.
- Worked as a Senior Architect at Packexpo, Inc.

PROFESSIONAL EXPERIENCE:

Comcast, Corp.   **01/1/2018 - 04/1/2018**
Software Engineer
- Updated one Java system to Docker/Kubernetes, Java 11, Cucumber, Reactive Extensions, Git, Wiremock, Mockito, JUnit.

Charter Communications.   **01/4/2016-12/31/2017**
Software Engineer,
- Maintained 100+ Java micro-services, added new micro-services all in Amazon Web Services.
- Linux, Netflix OSS, Cassandra NoSQL, Reactive Extensions, Java 8, SQS, SNS, S3, EC2, Active MQ, Mongo, Git, Spring, Wiremock, Mockito, Unit.

Comcast, Corp.   **09/1/2014 – 2015**
Software Engineer
- Designed and built "RxJDBC," a Reactive Extension, RabbitMQ Message Oriented Middleware (MOM) front to an Oracle database as part of the Resiliency Project, Java, Git, Wiremock, Mockito, JUnit.

Tendril, Inc.   **02/1/2014 - 05/1/2014**
Software Engineer
- Back-end dev-ops programmer on SOA Finagle+Protobuf+Cloud Java/Scala micro-services.
- Atlassian, Cucumber BDD, PostgreSQL, Hadoop, Hibernate, Scala, Intelli-J IDEA, Git, Puppet.

JDA Software Group, Inc./ RedPrairie, Corp. formerly StorePerform, Inc.   **02/1/2010 - 12/31/2013**
Senior Software Engineer
- Project Lead for integration of iOS, Android mobile task system with legacy web-based system.
- Tasks roughly are E-mail messages enhanced for distributing and tracking business actions.
- Customers included Fortune-500 companies. Scalability, performance were significant.
- Technologies: OSGi, Gradle, Git, and Sql Server, Git, Mercurial, Subversion, CVS.
- Extended and maintained legacy J2EE web-based task management system.

Independent Software Development Consultant &   **2008 - 2009**
Sun Java Consultant
- Extended and maintained a JEE merchandise inventory system with MySQL DB, Java, Spring.
- Customers: AmDocs, Etilize, Bell South, eBay, Frontier Airlines, Skyway

Evolution Hosting, Inc.   **2007**
Chief Operation Officer
- Viawest data center Linux servers for J2EE applications with Java management software, Java, Linux, VMware, Zen, Amazon Web Services.
- Large number of customers including Crocks, Wells Fargo, and Hunter Douglass, among others.

Independent Software Development Consultant   **2004 - 2007**

& Sun Java Consultant
- Created NIO client with could reach 100 Mb/s scale message rates.
- Created new web sites, Java.
- Consulted at eBay, Frontier Airlines, Bell South, Skyway representing Sun Microsystems, Inc.

Packexpo, Inc.   **2002 - 2004**
Senior Software Architect
- Created a reporting systems for packaging advertising services.
- Maintained packaging advertising web site.
- Technologies: JBoss, Linux, MySQL, Intelli-J, BeanShell, JSP, Lzop'ed data stream for large DB backups over NFS mounts, Java, Groovy.

Sun Java Center, Sun Microsystems, Inc.   **1999 - 2002**
Java Consultant
- Represented Sun for RUP, UP, SunTone, OOA&D mentoring and J2EE coding, Java, SCCS, Teamware, RCS, Solaris, Java.
- Consulted at Citigroup, Vanguard Fiduciary Trust, Credit Suisse.
- Performed an Architecture Assessment recommending SOA and JEE which later was followed as advised.

Sun Educational Services, Sun Microsystems, Inc.   **1998 - 1999**
Java Developer
- Created web-based and Swing computer assisted training systems.
- Improved the performance of our custom pseudo-recursive-descent parser template engine by adding caching of parser results and by altering the parsing algorithm.

EDUCATION, CERTIFICATIONS, PATENTS

- Sun Certified Java Developer
- Sun Certified Java Programmer
- Patent: #6907423 Search engine interface and method of controlling client searches
- B.S. Computer Science, University of Colorado at Boulder
